Category Name DAAC Ops/Interfaces

Actionee HAIS

Sub Category

Subject Missing EOC Interface

Description of Problem or Suggestion:

The EOC Interface with the GSFC and LaRC DAACs for AM-1 is not shown in this presentation. The interface covers flow of housekeeping data, history data, etc.

Originator's Recommendation

Include EOC interface in future documents/reviews, etc. Make sure that this interface is being addressed by both OPS and development personnel for FOS and SDPS and show results at CDR. Develop operations plans and procedures on both sides (FOS, SDPS) that cover this interface.

HAIS Response Date 6/28/95

We agree with the originator's suggestion relative to the GSFC DAAC. The exclusion of EOC was an oversight on our part and should have been included in the referenced GSFC DAAC diagrams. We will be sure to include the EOC interface with the GSFC DAAC in future documents and reviews.
